Help prevent fraud! Develop a web-based audit system

Project Title	Help prevent fraud! Develop a web-based audit system
Project Slimmary	Develop a web-based system that compares reports from two different financial systems to detect anomalies.
Country	Botswana

Project Description

This is your opportunity to make a difference with your coding skills! We're looking for a full-stack developer to create an application to uncover potential fraud. The system should be capable of receiving reports via email, parsing them, and comparing values to discover potential discrepancies.
